

## The Cub's Den Pre-K Program

To all that are involved:

My husband and I are so delighted with our son's enthusiasm and progress in the Pre-K Program at Duck Hollow Discovery Learning Center's Site #2-The Cub's Den. It has been a real pleasure to watch his progress. He has come so far. His speech has really developed; letter and number recognition is incredible. His socialization skills are really developing. Before the program started, our son was enrolled in three half days at the Cub's Den. Since he has started and attends the full 5 days he has taken off mentally, socially and even physically. We would highly recommend the program to all parents of young children. We really applaud the teachers at The Cub's Den. The Pre-K Program has wonderful material but the real magic behind the program are the teachers. We will be sad when our son will need to begin Kindergarten in the fall. It is important that the teachers know that they have left footprints on hearts!

Thank you!
